As Toynbee once wrote; “History is a stern taskmaster. You cannot yield to her whims or know the dark corridors of her world without having witnessed the awful truth of her presence. So know ye the past, or watch out.”

Taking the tip, perhaps a brief review of the history of the Alpha Kappa Chapter of the Alpha Kappa Kappa National Medical Fraternity is in order, for our past is indeed glorious, and ye may learn much indeed by knowing it.

It all started back in 1866, when young Beauregard Ravenel returned from the Third Virginia Fusiliers to complete his medical education which had been rudely interrupted by the War. Beauregard, who still walked with a slight limp due to some shrapnel embedded in his left quadriceps femoris, rented an attic apartment above old man Thalhimer’s general store on Clay Street, within easy limping distance of the School.

The summer stayed late that year, and even into late October and early November, the grass remained green, and the leaves refused to fall. Many were the times when, after a hard day in the sweltering labs, Beau and his chums would gather up their rifles, then off they would go to ambush a few of the pesky squirrels that infested the wooded area in front of the State Capitol. Whenever they invited Herb Tareyton, the president of Beau’s third-year class, who was well-known to be a great wit (and a ladies’ favorite), he would always reply with, “Say, that’s a Capitol idea!” and everyone would laugh at the pun, including Beau, who was not lacking for wits either.

Well, the summer dragged on, and everyone including good-natured Beau was getting pretty fed up with the weather when it hit ninety-two on Christmas Day. Most of the squirrels had been shot long since, there by making that Christmas recess rather dull. Occasionally, for lack of anything better to do, the lads would gather down at Ed Poe’s house and coax that strange fellow into reading his poetry to them. He was an odd one, that chap, but always entertaining, and his Amontillado was superb.

When school reconvened in February, Beau decided to organize a club to provide some regular entertainment for himself and his friends. They decided to call the club the Alpha Kappa Chapter of the Alpha Kappa Kappa National Medical Fraternity (Akcotakknmf). And that, as I said before, is the way it all started, back there in 1866 when good ol’ Beauregard Ravenel returned from the Toynbee to shoot some squirrels ...

Those immortal words of our first and second years—“I haven’t cracked a book all week!” . . . Freshman to Senior—“Who’s King David?” . . . “General, how do you crank this chair up?” . . . “Mrs. Jones said that the Skull and Bones was low bidder—and the SMA was three hundred and twenty-fifth!”

Edward Ross, Vice-Pres.

STUDENT DENTAL ASSOCIATION OFFICERS
Jim Glore, Pres.
James Adams, Vice-Pres.
Bob Oswald, Treas.-Sec.
Graduation is an experience and an accomplishment. It is a time of joy and relief. Each of us met the challenge in his own way... some were hardened, some tempered, some fell by the wayside, while others remained impervious. Will we ever forget the recent days of numbing frustration, satisfaction, depression, immense joy, desperation, and sarcasm?

Lest we forget... Gross lab with Klondar's brilliant perianal dissections... complement fixation... the great neuroanatomy squirrel shoot... Duncodont... motel parties... the bathroom raider... the slump test... your anatomy number... the T.V. demonstration following the angry 5 lb. bag of sugar... Dr. Burke's acute hearing... Sol's shirt-tie combinations... Funi's... "Sunt Ours"... the Kraski award... the RCH... the skull quiz... Mother and staph aureus... physiological vapors during the physiology final... Spoto and the green soap... Oou-poops crew cut... S.R.'s Hour of Dissection in Gross lab... WHAP... dressing for C & B lab... the Flash... shaving cream... Fitzhugh clamp... the British manner of prosthetic swiftness... chart checks... sacks of wheat DO NOT Give Penicillin... the 100's on the operative final... orthodontic consultations... Captain Cathode... What's the question, Doctor?... the left-handed Ford... ooh... Doktah... tidying up the lounge... "Sullimental grooves per capital"... the southeastern distribution for Cepacol... Big Red's room and board with a view... Maason and Newsoomes... oold Tom... the moon shot by the Laburnum Gemini twins, Frenchy and Hurtin'... pizza... Tumor Bored... Rooounds... Freida's All-American team... progress reports... sleeping in P of M... didactic gas warfare... the Wednesday morning attendance reports... C.R.'s class IV silicates... music lessons... 4:15 temporaries... the 11:15-11:45-3:15-3:45 breaks for a short beer or something... Good days... bad days. They all somehow managed to see us through. So now we begin.

Pharmacy/67

Four years of MCV ... four years of many emotions ... four long years ... Freshman year ... the year of introduction of things to come ... the stories ... the rumors ... got "locks" ... pearls and more pearls ... Resumes (English majors?) ... Saturday morning Physics demonstrations ... finally Sophomores ... many new faces ... many faces no longer here ... our first real pharmacy courses ... aliquots, alligation, and divide by the "N.F." ... benzene rings and CH₃ ... Cats, dogfish, sharks, "Frogs" ... will it never end? ... the Junior year ... fewer faces ... long nights set in ... coffee, cigarettes and more coffee, cigarettes ... work, work ... Periwinkle plants ... "jet set" ... suppositories ... U.S.P. Pigeons ... DIGITALIS! ... "Super Rat" ... "Hey, troops" ... white lab coats at least eight days a week ... will it never end? ... second quarter ... almost Seniors ... "Hey, Bedros!" ... dogs and more dogs ... "Ya!" ... cutting and pasting 302 ... Bless Xerox! ... the Egyptian Building at 9:00 a.m. ... bacteria and viruses ... eye strain! ... Dispensing—five hours of lecture a week ... q.s. in the bottle ... family record cards ... Dr. who? ... we're there—Seniors at last ... Seniors don't flunk? ... more benzene rings ... faster than the speed of sound ... drugs and more drugs ... Bless Xerox! ... medical emergencies ... more facts ... we're getting there ... we've done it ... four years at MCV ... four long years ... we respect you MCV.

Sure, we're studying our physics... that's an omega.

Someone should tell her...
The Noble Prize for Chemistry goes to...

Well, if the answer was 'true' last year, we'll say it's 'false' this year.

Waiting for grades

But I ordered it two years ago!

Working for, and...
It's Super Student!

Can we at least be friends?

A game of bridge.

Let's see, it says here that gomisch means . . .
She's smiling now, but wait until they get to be Juniors.

Nursing/67

FOUR YEARS AT MCV . . . Memories

Misery Was . . .

- counting fruit flies . . .
- firedrills at 1:30 A.M. . . .
- blue uniforms . . .
- rabbit lab . . .
- losing your last dime in the Pepsi machine . . .
- spending two summers in Randolph-Minor . . .
- the MCN computer . . .
- getting up at 6:00 A.M. . . .
- eating on the meal plan . . .
- a "C" plus . . .
- a conscience when you’re trying to oversleep . . .
- interactions . . .
- care plans . . .
- a home visit in the cold, freezing rain . . .
- running out of typing paper at 3 A.M. . . .
- an empty mailbox . . .
- sitting in the dorm on a Saturday night . . .
- cleaning test tubes . . .
- lab practicals . . .
- essay exams . . .
- counting fats and carbohydrates . . .
- learning to give injections to each other . . .
- having a patient miss the bedpan . . .
- evaluations . . .
- a run in your last pair of white hose . . .
- having roaches in your room . . .
- being called a two year old!

Happiness Was . . .

- finding a scrub dress that fit . . .
- Dr. Cribbs . . .
- the first day in the hospital . . .
- a white uniform and cap . . .
- roasting on the roof . . .
- tray rides in the park . . .
- sleeping . . .
- THE summer vacation . . .
- a letter . . .
- finding Pediatrics class . . .
- finishing a paper early . . .
- seeing a patient go home . . .
- getting out of class on time . . .
- a care package from home . . .
- enough dimes to do your wash . . .
- quarter breaks . . .
- not eating on the meal plan . . .
- a phone call . . .
- having Fridays off . . .
- spending money . . .
- a two hour labor for your MCN patient . . .
- gym class . . .
- an elective . . .
- having someone the same size live on your floor . . .
- a clean room . . .
- a black band . . .
- being ahead in nursing quality points . . .
- "Locky" . . .
- getting back to the dorm at 1:05 . . .
- our friends . . .
- getting our degrees . . .
- NURSING!

Dorm Life
Yes, I can be ready in five minutes.

Oh, I'm sorry. I thought this was Rudd Hall.

Sure was a great party!

Bedpans!

To whom do you wish to speak?
Let me entertain you

We're not two and a half, we're three!

I am not drunk!

Love at first sight

Chanakah rides again!

We try harder
Graduate School
DR. DANIEL T. WATTS, Dean, School of Graduate Studies
Graduate Studies

Graduate students ... beginning, we cannot see the end ... we see only the reality ... the here and now ... and the dream ... advanced education ... now we contribute as well as learn ... one student even invented a new branch of anatomy—Baboon-ology ... a close association with professors ... many different schools ... many subjects ... independent research ... teaching ... seminars ... capturing knowledge and making it part of us.

Now we can afford to get married, have children, and still eat, thanks to Dean Watts and the Graduate Council ... Scholarships ... Fellowships ... Assistantships ... No tuition.

Equal opportunity for all ... Will the Department of Pharmacology accept American-born graduate students next year?

Ph.D.—three years, four years, five years ... Do you think we can keep it under ten years?

The big panic ... thesis ... “Do you think I can write a thesis in two months?” ... Climax ... Comprehensives ... Twenty professors in a row ... it pays to practice.

Finished, no beginning ... just beginning to reach into our own worlds of knowledge ... adventurous ... exciting ... a new discovery ... teaching ... inspiring others to discovery ... ... a part of the world of science ... a part of the world.
NABIL AMIN AZZAM  
Beirut, Lebanon  
American University of Beirut, B.S.  
Medical College of Virginia, M.S.  
Ph.D. Anatomy  
Thesis: Histochemistry of the incisures of Schmidt-Lanterman  
Student government president, 3; Class president, 2; Student council, 1.

PATRICIA LONG DEMENTI  
Richmond, Virginia  
Westhampton College, B.S.  
M.S. Anatomy  
Thesis: Some hematological characteristics of the nine-banded armadillo

JOHN PAUL BEDERKA, JR.  
Edenborn, Pennsylvania  
West Virginia University, B.S., M.S.  
Ph.D. Pharmacology  
Thesis: Synthesis, distribution, biotransformation, and exertion of some 14C-labeled pyridinium compounds and pyridones

ROBERT L. DUNCAN, JR.  
Richmond, Virginia  
Randolph-Macon College, B.S.  
Ph.D. Pharmaceutical Chemistry  
Thesis: 7-Substituted-2-diaryl aminomethylindoles

ARCHIE JAY BEEBE  
Chincoteague, Virginia  
Medical College of Virginia, B.S.  
Ph.D. Pharmaceutical Chemistry  
Thesis: Potential anticholinergic compounds based on Arlons' dual receptor site theory  
Rho Chi; Alpha Sigma Chi; Sigma Zeta; Phi Delta Chi; Who's Who; Student Government Vice-President, President; Chairman, Honor Council; Interfaith Committee; Tour Committee; Social Committee; Visiting Lecturer Committee; X-Ray staff; Class president, secretary.

Birmingham, Alabama  
Samford University, B.S.  
M.S. Anatomy  
Thesis: Molecular evolution of Lactate dehydrogenase in telencephalon of Passer domesticus
ROBERT McCLELLAN GEORGE, JR.
Richmond, Virginia
University of Richmond, B.A.
M.S. Anatomy
Thesis: The gross anatomy of the intrinsic back muscles of the baboon with reference to man

CHAREEN GAIL GRUBBS
Richmond, Virginia
Lynchburg College, B.S.
M.S. Biology and Genetics
Thesis: A linkage map of the X chromosome of Drosophila tropicalis
Class historian, 1; Class sec.-tres., 2; X-Ray representative, 1, 2, 3.

JAMES THOMAS INGRAM
Roanoke Rapids, North Carolina
University of North Carolina, B.S.
M.S. Pharmacy
Thesis: Mechanism of action of starch as a tablet disintegrant

The desert fox wows 'em again!
WILLIAM E. KEEFE  
Richmond, Virginia  
Virginia Polytechnic Institute,  
B.S., M.S.  
Ph.D. Bio-Physics  
Thesis: The direct determination of the crystal structure of 2-aminoethanebisulfuric acid.

SAMUEL VICTOR MOLINARY  
Saint Paul, Virginia  
University of Virginia, B.A.  
Ph.D. Biology and Genetics  
Thesis: Genetic transformation of carbohydrate markers between human somatic cells in vitro. Kappa Psi

JOSEPH E. LEVASSEUR  
Richmond, Virginia  
Georgetown University, B.S.  
M.S. Physiology  

BRENDA D. PAYNE  
Richmond, Virginia  
Richmond Professional Institute, B.S.  
M.S., Pharmaceutical Chemistry  
Thesis: Molecular weight distribution of trypsin hydrolyzate of bovine plasma albumin.

ROGER JOHN MOORE McCARTER  
Johannesburg, South Africa  
University of The Witwatersrand, B.Sc., M.Sc.  
Ph.D. Physiology  
Thesis: Energetics of the contraction-relaxation cycle in frog skeletal muscle  
Honor Council representative.

CHARLENE ANN SEIBERT  
Birmingham, Alabama  
Howard College, B.S.  
M.S. Anatomy  
Thesis: I.E.A. of plasma and other tissue specificities of the house sparrow, Passer domesticus  
School of Graduate Studies, Secretary-Treasurer.
"L.S.D., anyone?"

Boy, can those hamsters run—our research almost got away!

We all think your broken leg is funny—don’t you?

Would you believe—a roach in the crystals??

WOW! I’m switching to Anatomy!
I wonder what would happen if I opened the top.

It sure beats being drafted.

STUDENT AMERICAN PHYSICAL THERAPY REPRESENTATIVES: Carolyn Rees, Senior; Marilyn Carter, Junior
"It will take a miracle,"
we were told,
To turn us into
"professional people"
It took that—
and more—
—all the conviction we were given by our teachers
—all the knowledge we could get from our books
—all the respect we received from our patients
—all the encouragement we got from our friends
—all the wisdom we could find in ourselves
It took the happy times we had together
—Singing songs to sharpen the duller hours
—whirling in the pool—in the pool
—lining up for uniform inspection
—romping in the snow
—picnics in the rain
—performing as the "spinal cords"
—coming back after a summer well spent
—sharing our joy with the new class
—washing cars—and diathermy machines
—joining the dentists for neuro
—making chaos Constitutional
—graduating
It took moments of silence—
of thought—
of wonder
We were given a glimpse of life—
enough to make us want more—
And we were given the confidence to dare
to seek it

Evicted? Who, us?

Happy Birthday to you . . .

Clean hands, my job!
Only 51,720 more cars and we’re off to Miami!

It was only a little quiz...

Run come see...

Did you say ab or ad-duction, Mr. Jones?
School of Medical Technology
DR. GEORGE P. VENNART, Director, School of Medical Technology
We arrived in September full of apprehension
and expectation ... moving into the top floor
of an old dormitory ... feeling conspicuous in
our white uniforms and shoes ... giving up luxu-
ries of earrings, headbands, and jewelry ... 
being told, "you are professional."

New routine and period of adjustment ... and
8:00-4:30 day ... soon became accustomed to
new ways ... acquiring twenty new friends ... 
settling down to the business of becoming Medi-
cal Technologists ... finding satisfaction and en-
joyment in patient contacts ... feeling like we
were doing something at last ... shouldering re-
sponsibility and beginning to realize the impor-
tance of our work.

But all was not work ... we enjoyed ... taking
the children from the Rheumatic Fever ward to the
Christmas toy parade ... interminable bridge
games ... busy weekends.

In lab, we waited in line for pipettes and rea-
gents ... we learned that Medical Technology is
a vital part of diagnosis and therapy ... that ac-
curacy is essential ... we developed eyestrain by
peering through microscopes for hours on end ... 
but we learned what to look for ... how to identi-
fy what we saw ... there were innumerable blood
counts ... practicing sticking each other ... cross-
matching blood ... practicing chemistry tests ... 
putting in seven and one-half hours everyday ... 
learning to appreciate a ten-minute break for a
quick hand of bridge.

We look forward to graduation ... our clinical
experience ... the Registry exam ... the begin-
ning ... of our careers in our chosen profession.

OFFICERS, Class of 1967: John Markham, Pres.; not pictured, Gerald Landis, Vice-pres.; Tom Clark, Sec.-Treas.

Hospital Administration /67

From varied backgrounds ... some leaving an old career ... starting a new one ... our backgrounds ... Peace Corps ... Medical Technology ... Pharmacy ... Accounting ... Philosophy ... the "sweet bloom of youth" ... some, more experienced.

Mr. Hudgins ... our director ... "Each administrator must ultimately find his own answers" ... never become indebted ... the Duchess Treatment ... a man of ethics ... a professional practicing his beliefs.

Dr. Cardwell ... now our acting director ... a well-known lecturer ... a man well-versed in his field ... knowledgable in many fields ... another professional.

Dr. Rooke ... "lay groundwork for adaptive behavior" ... "the prevention means more than the cure" ... a brilliant woman ... teaching us compassion and understanding.

Classes ... so many different classes ... Hospital Accounting ... if it had lasted longer, everyone would have left ... Psychology of Rehabilitation ... we all left feeling a little disabled ... Personnel Management ... you’d never guess how much we know about the history ... Law ... suicides, murders, bloody pictures ... field trips ... Woodrow Wilson Rehabilitation Center ... we lost a few at Westbrook ... "The Empty Rocking Chair" ... "I am going to show you how not to give a report" ... "You have done this for two weeks" ... All this ... we become a close-knit school.

At last ... Residency ... what we came here to do ... adjust the hospital to the needs of the patient, the doctor, the nurse, the family ... remember your aspirations ... one and a half parking places per patient bed ... many facets ... a challenging field ... much to learn, much to teach ourselves ... theses ... oral exams ... Graduation ... no, Commencement ... we aspire toward professionalism ... Res ipsa loquitur.

I think they took the same psychology course.
Number one son does it this way

You can laugh, but I still think hospitals are for patients

“Professionalism?”
One empty rocking chair

You study—I'll pray

Too bad these aren't rose-colored

Where's William?
Radiological Technology
CARL H. GERHOLD Technical Director, School of Radiological Technology
Profile of a Beginning

A new beginning... eight students... three year course... associate in science degree... altogether new X-ray program... in conjunction with R. P. I... four classes... five days a week... Anatomy... English... Math... Psychology... Sociology... back and forth, back and forth... through snow, rain, and hail... never fail—well, almost never... one class at M. C. V... awful elevator ride... eighteenth floor of M. C. V. hospital... from there to fifth floor... to sixth floor... to Randolph Minor... then to "who knows where next"... Radiography... tubes... electricity... radiation.

Summer session... floor work... observation... eight hours a day... two months... vacation?... September... emergency room... classes resume... one at R.P.I... the rest at M.C.V. work and study... long hours... little leisure time... learning, learning, learning.

Third year... no classes... work under observation... 1969... at last... first graduating class... School of Radiologic Technology... eight—1966...?—1969... rough work... a lot of work... worth it?... Supervisors... teachers... top-notch technicians.
FRESHMAN CLASS OFFICERS: left to right, Sylvia Washington, president; Frances Martin, treasurer; Patsy Cooper, secretary.

The Editor
How will you present your first denture case?

Your patient is likely to be apprehensive. Chances are, you may be a little nervous yourself.

In such a situation you will want to use every possible means to gain your patient's confidence and create the proper emotional climate for your diagnosis and treatment.

Consider the Blend Selector for Trubyte Bioblend. It is an invaluable aid to natural tooth color selection. And, during the all important first appointment, it is a highly effective instrument for demonstrating your own professional knowledge and skill.

The Blend Selector is so unique it is patented. There is nothing like it in the entire world of dentistry. Ask your Trubyte Dealer to show you its use, in practice—for your first denture case, and for all the denture cases in your forthcoming career.

"Doctor's House Call"

TV and RADIO'S Most Instructive
Health Education Program . . .

Featuring — Dr. James Rogers Fox —

in an interesting and informative 5-minute program that
will help to create a better understanding by the public and
a better informed appreciation of the importance of early
discovery and adequate treatment of their health problems
by their physician. Dr. Fox is presented in cooperation with
the American Medical Association and your local medical
society. The medical content of this pro-
gram has been authenticated by the AMA's
Physicians Advisory Committee for Radio.

Each of these programs
ends with Dr. Fox's advice—
"Consult Your Physician"

Radio — 1140 on Your Dial — Mon. thru Fri. — 11:53 a.m. to 11:58 a.m.
Television — Channel 12 — Monday thru Friday — 7:25 a.m. to 7:30 a.m.

ELECTRICITY: MUSCLE OF INDUSTRY

Behind the great industrial might of America stands a "giant workman" — electric energy. It would require the muscle energy of 70 men working 40 hours a week for one whole year to equal 10,000 kilowatt hours of electricity — less than the average annual consumption of two Vepco residential customers. Yes, electricity is the "muscle" behind our power and prosperity.

Buildings

The physical structures . . .
Where we think what we think . . .
Do what we do . . .
Old, new, newer . . .
A tangible evidence of growth.
Wanted Dead or Alive

Wanted dead!

Who wants?

Will anyone take ...

Not wanted!
Pick one!!

Caught!

Escape!

Too late he's gone!

Please pick me ...

Who me?
